

CT length L4	500	mm	Standard	IEC 60137-2017		
Temperature range	-55	+40		°C	-	
Electrical specifications						
Rated lightning impulse withstand voltage (BIL)	650	kV	Rated highest voltage for equipment (Um)	145	kV	
Rated current (Ir)	1600	A	Phase to earth voltage	84	kV	
			Power frequency withstand voltage (AC)	dry	305	kV
				wet	275	kV
Rated short-circuit current (Ith)	40 kA	2s	Rated frequency	50/60	Hz	
Routine tests (Up to 1000m)						
Measurement of dielectric dissipation factor and capacitance at ambient temperature				88/145	kV	
Measurement of partial discharge quantity # 10Pc				145	kV	
Dry lightning impulse voltage withstand test				683	kV	
Dry power-frequency voltage withstand test			50 Hz	60s	305	kV
Voltage withstand test			Test tap		2	kV
			Voltage tap		-	kV
Tightness test				1,5	barg	
Top Terminal (air side)						
Cylindrical Copper/Silver plated ø40x150						mm
